Odds are a way of describing the probability of a certain event occurring. Odds are related to the occurrence. They can be represented in different ways, with the most common being the simple, fractional or decimal. For example, odds of 6:1 signify that, if a certain event occurs, you will receive six times the amount bet as profit.

2x2 e Odds

A relationship between the odds of two groups can be calculated by dividing the odds of the exposure group by the odds of the control group. This means that, if the groups are represented by a 2x2 table, the odds are the ratio of the diagonal cells.

Grupo Controle	Grupo de Exposição
