The Juventus midfielder was provisionally suspended

from playing last month after a drugs test found elevated levels of

testosterone in his system. On Friday, the 30-year-old's failed

drugs test, which came following a Serie A game against Udinese on August 20,

was confirmed after his B sample also tested positive.

The tribunal said Pogba had

violated anti-doping rules when they found the prohibited substance

“non-endogenous testosterone metabolites,” adding that the results were

“consistent with the exogenous origin of the target compounds.”
