<p>Terrible game.</p>

<p></p>

<p></p>

<p></p>

<p>I just bought this, as &#127819; I was looking for a game that is exac

tly this premise. Alas, when I found this game, I bought it &#127819; and I was

extremely disappointed. Just loading up the game took forever, and I kept havin

g to close and reopen &#127819; it. When it finally opened, it took 17 minutes

just to do that. Yeah. Now it&#39;s not like I have &#127819; a terrible laptop

, my laptop is really good and I&#39;ve never had any issues with such a thing.

Then, upon &#127819; opening the game, I couldn&#39;t look around because the d

efault settings were set to ultra. For the record, I don&#39;t &#127819; really

have an issue with game devs doing this, but it leaves a bitter taste in your m

outh. I had &#127819; to set the quality to very low and even then it was still

so laggy. It was 2 fps at &#127819; the most (like, not stretching the truth h) Tj T\* BT /F

ite literally just pixels. The game was also very repetitive, so even if you hav

e a NASA super-computer &#127819; you will get bored of this really quickly. I

do not suggest this to anyone, no matter how enticing it &#127819; looks. It wa

s terrible and so incredibly frustrating; especially because I kept having to me

ddle with the settings and make &#127819; the game actually playable (spoiler a) Tj T\* BT .

so &#127819; happen to have amnesia this game would be quite enjoyable, but unf

ortunately I see a lot of people having the &#127819; same disappointment as I

am. I really wish I could have this refunded, even just half of the money I &#12

7819; spent on this. I&#39;m unsure if Steam would let that happen, so for now

I just suggest you don&#39;t get &#127819; this game unless you get it free som

ehow.</p>
