t, extremely pocketable, does the job, not my dream charger but at 7 , £ the pric  
e it s well worth it.</p>< p>< p>< We ve covered a product of Lepow s before, the Moonstone. Like the Moon  
stone, the Poki comes 7 , £ with a cloth carrying case that you can stash a USB c  
able in (it appears to come with a 6 † 7 , £ USB-&gt; MicroUSB,) or chuck your ID  
and credit card in and use it as a wallet while you re out. It s 7 , £ actually t  
he first thing that stood out when I was looking at the device. The Moonstone is  
still going strong 7 , £ with a friend of mine a year later.</p>< p>< p>< The battery delivers a 90% conversion efficiency rating according to sp  
ecs on the 7 , £ manufacturer s website. Most batteries go from the high 70 s to  
mid 80 s. You want to see a higher number as 7 , £ this is how much power gets de  
livered with the rest being lost in conversion.</p>< p>< p>< The Poki can charge and recharge at 7 , £ 2.1amps. This means you re not  
stuck for 20+ hours charging a 10,000mAh battery at 500mA. At 2.1 amp you shoul  
d 7 , £ be able to charge this in under five hours and with 90% conversion effici  
ency you should have around 9000mAh of 7 , £ actual juice to spare. That should b  
e enough for at least three complete charges from dead to full for any 7 , £ smar
