

# bet 365 app ios

Look for the secure padlock: Chrome, Safari, Internet Explorer and Firefox browsers display a padlock in the URL field to indicate "safe" websites. You can click on the padlock to confirm that the certificate belongs to the same company as the website you are trying to visit.

How to identify legitimate websites | Columbia University Information ...

legit-websites

1

2

Investigate the SSL certificate.

3

4

Verify the domain.

5

Check the contact page.
