[Red Ogo Seaweed | California Sea Grant](#) : seafood-profiles : red-ogo-seaweed

Ogo comes in thin strands. Like most other seaweeds, it's a bit salty, but it's also lighter than most other varieties. It also stands out for being a brown-ish red color when raw.

Popular uses for ogo include raw or cooked in salads, soups, and alongside other seafoods to freshen up the other components of a dish.
