God of War Ragnarok Preview Thanks to a graphics mode options breakdown from Press Start, it's been confirmed that God of War Ragnarok supports 120hz. In a practical sense, this means that it's designed to run with an unlocked framerate that aims to stay above 60fps.

As a reminder, in performance mode, the game runs at a near-lawless 60 fps with a resolution that ranges from 1440p to native 4K. Enabling the high frame rate mode will unlock the frame rate, allowing the PS5 to render as many frames as it possibly can.
