Best cod of the modern era, not that that saying much. The campaign was

fun enough, with interesting ideas such as dialogue options and bran

ching missions, but overall it's hard to get invested in due to the

he state of the overarching COD storyline. I'm honestly can't tell if th

is is solely in the new MW timeline, a sequel to the old black ops st

oryline, or some weird fusion of the two that drags the old games into

o everything.

Not much to say on the MP. I haven't played it since it's year

in the cycle, and games are hard to find, at least on pc/steam. From

what I remember I enjoyed it, especially the 3v3 mode. the overall ga

me feel is bad compared to the MW games, but I think that's not an issue goi

ng forward. Fun for the most part, but SBMM makes matchmaking annoyin

g to participate in, often having the game openly tell you it's searching

for games with 100 plus ping at times.

Zombies though, Zombies is genuine great. BO 3 is certainly the peak of

of the original zombies formula, but I dare say I almost like this more

, gameplay wise. It is sadly missing a lot of the personality of the

W@W-BO3, with MP operators as characters instead of a set crew being the

largest problem. The HUD does also kinda suck, fine in function but lacking

any character in the design. Especially compared to BO3, although I

d say it's still miles above BO4 with how cluttered that was.

All in all, I'd say it's worth it on sale if you rea

lly like cod zombies and skipped this one. It has a lot of rouge-like elements

that can keep you playing for a while, plus a weapon/camo grind, if yo

u're into that sorta thing. If you're not a fan of zombies, d

on't bother.
