Aviator sunglasses are a style of sunglasses that was developed by a group of American firms. The original Bausch & Lomb design is now commercially marketed as Ray-Ban Aviators, although other manufacturers also produce aviator-style sunglasses.

Aviator sunglasses - Wikipedia : Aviator_sunglasses

Aviator sunglasses were originally designed for pilots, who needed them to protect their eyes from the sun and wind. The design features a wrap-around frame and a dark lens. The name "aviator" comes from the fact that they were first used by pilots in the early 20th century.

But why are they called aviators? The answer actually lies in their history. Aviator sunglasses were originally designed for pilots, who needed them to protect their eyes from the sun and wind. The design features a wrap-around frame and a dark lens. The name "aviator" comes from the fact that they were first used by pilots in the early 20th century.
