Origem da história

For aircraft speeds which are much greater than the

speed of sound, the aircraft is said to be hypersonic. Typical spee

ds for hypersonic aircraft are greater than 3000 mph and Mach number M greater t

han five, M $\gt; 5$. We are going to define a high hypersonic re

gime at M $\gt; 10$ to account for re-entry aerodynamics.

personic means faster than the speed of sound, while hypersonic mean

s specifically five times faster than the speed of sound. Therefore

, all hypersonic speeds are also supersonic, but something supersonic is not nec

essarily hypersonic.
