The 14-inch MacBook Pro with M3 Pro chip is a good option for gamers. We suggest that if your budget runs to it you should opt for the mid-range model that comes with 1TB SSD, 12-core CPU, and 18-core GPU (forR\$2,399/2,499). That way you avoid the slower SSD of the entry-level model, and get the extra GPU cores.
