From his early days in Durban, South Africa, he's now living in Cape Town, South Africa.

Handicap 1 (0): O Bets365 is a popular betting site for soccer. It offers a variety of betting options, including handicap betting. Handicap betting is a type of bet where one team is given a head start or a head end to level the playing field. For example, if Team A is favored to win, they might be given a handicap of 1 goal. This means that Team A must win by more than 1 goal for the bet to be successful. If Team A wins by exactly 1 goal, the bet is a push (neither a win nor a loss). If Team A loses or draws, the bet is a loss.
