

O O bet365

This will give you the price after the 20% discount has been applied.

For example, if

the original price defined in the RSS can

be calculated as follows:

original price - (original price * 20%) = discounted price

For example, if

the original price is \$100, the discounted price is \$80.

For example, if

the original price is \$100, the discounted price is \$80.

For example, if

the original price is \$100, the discounted price is \$80.

For example, if

the original price is \$100, the discounted price is \$80.

For example, if

the original price is \$100, the discounted price is \$80.

For example, if

the original price is \$100, the discounted price is \$80.

For example, if

the original price is \$100, the discounted price is \$80.

For example, if
