God of War Ragnarok Preview Thanks to a graphics  
mode options breakdown from Press Start, it's been confirmed that  
God of War Ragnarok supports 120hz. In a practical sense, this  
means that it's designed to run with an unlocked framerate that aims to stay  
above 60fps.

O O bet365  
As a reminder, in performance mode, the game runs at  
a near-flawless 60 fps with a resolution that ranges from 1440p to native 4K.  
Enabling the high frame rate mode will unlock the frame rate, allowin  
g the PS5 to render as many frames as it possibly can.
