<p&gt;&lt;/p&gt;&lt;p&gt;Football corners predictions is one of the fairly ne
w tips offered by tipsters and by us. Some say it's luck £, predicting corn
ers in a football game, but we at AFootballReport find in corners very profitable
e markets especially in live events £, when odds go very high as the game evolv
es. So how do we predict corners? Of course as any other football £, prediction
and corners are related to a number of pre-match and team factors. First of all
we should see the £, type of game we're looking for or the type of game we
want to predict. Is it a game with £, a strong favorite or just two equally str
engthen teams that play. If it's a game with a strong favorite probably £,
we should pay attention to the corners race predictions as strong favorites alwa
ys keep the ball in possession more than £, the other teams and create more cha
nces as they push forward almost during the whole game. Keep in mind in £, live
events that if the score is in favor of the favorite team then this team would
not be so £, motivated to create chances and would probably win less corners the
an in a draw event or from behind.</p&gt;
<p&gt;Second thing we £, should use when making our corners tips is to see t
he teams
           lineups and tactic for the upcoming game. Target £, teams with more o
ffensive tactics and teams that use wingers heavily in their attacks. For exampl
e, some good wingers for £, the home team could easily produce more than 10-20
crosses in the penalty area which very often defenders clear in £, corners.<
