The formula calculates the sum of a range of Fibonacci numbers.

$F(n) = F(n-1) + F(n-2)$, with $F(0) = 0$ and $F(1) = 1$.

Rules for Fibonacci Numbers

Fibonacci sequence numbers follow a rule according to which, $F_n = F_{n-1} + F_{n-2}$, where $n \geq 1$. The third Fibonacci number is given as $F_2 = F_1 + F_0$. As we know, $F_0 = 0$ and $F_1 = 1$, the value of $F_2 = 0 + 1 = 1$.
