

## aposta e ganha bet

Football corners predictions is one of the fairly new tips offered by tipsters and by us. Some say it's luck; predicting corners in a football game, but we at AFootballReport find in corners very profitable markets especially in live events; when odds go very high as the game evolves. So how do we predict corners? Of course as any other football prediction and corners are related to a number of pre-match and team factors. First of all we should see the type of game we're looking for or the type of game we want to predict. Is it a game with a strong favorite or just two equally strengthen teams that play. If it's a game with a strong favorite probably; we should pay attention to the corners race predictions as strong favorites always keep the ball in possession more than; the other teams and create more chances as they push forward almost during the whole game. Keep in mind in; live events that if the score is in favor of the favorite team then this team would not be so; motivated to create chances and would probably win less corners than in a draw event or from behind.</p>

</p>

Second thing we; should use when making our corners tips is to see the teams lineups and tactic for the upcoming game. Target; teams with more offensive tactics and teams that use wingers heavily in their attacks. For example, some good wingers for; the home team could easily produce more than 10-20 crosses in the penalty area which very often defenders clear in; corners.</p>

Corners in the late stage of the game are more likely to happen than in the early minutes. Usually teams; are very careful in the opening minutes of a football game and they try to enter the game more passively; than aggressively. As the game continues depending on whether a team is losing or winning the game is leading to; pushing forward and sending more players to attack or defend. This leads to significantly increasing the number of corners in; the last minutes and that is what we want when predicting corners.</p>

Spot derby games. Derby games are always poor in; goals, but very rich in corners and bookings and cards especially. No one wants to lose a derby, so teams; losing it push very hard to regain advantage, which always leads to corners produced. Explore the unique corners stats on our; page. Always streaks of teams that have more than 8, 9 or more corners in a row lead to same; or larger amount of them in future games. Those teams are basically that use offensive tactics and use wingers heavily; when
